Horizon™ – Dodge/Chrysler Half-Cut (Taxi) Mobility Van

SAFETY

Our vehicles are crash tested (FMVSS:214, FMVSS:301) and meet or exceed all ADA requirements and Federal Highway Safety Standards.

WARRANTY

All conversions include a 3-year/36,000-mile conversion warranty.

CERTIFICATIONS

Our taxi conversion is approved by the transit authorities in New York, Boston, DC, and Philadelphia.

MEMBERSHIPS

We are proud members of the TLPA (Taxi, Limousine & Paratransit Association) and NMEDA (National Mobility Equipment Dealers Association) as a Manufacturer Member: and listed with the NHTSA (National Highway Transportation Safety Administration).

- Quality mobility vans for the commercial passenger transportation or paratransit markets
- Constructed on a Dodge Grand Caravan or Chrysler Town & Country platform starting at the 2008 model year
- Offers the versatility of transporting six passengers (including driver and one wheelchair)

TUB

34" wide x 60" long

Inside tub for wheelchair is the largest useable space on a Dodge or Chrysler chassis. *(Compare to other companies, some still offering 56" x 32" center tub.)*

RAMP

34" wide x 47" long

Manual, spring-assisted ramp features a texturized, powder-coated, diamond pattern surface to reduce slips and increase traction. A 9-percent grade exceeds the 11-percent ADA requirement. These features assist ease of entry.

SEATING

60" wide

Second-row, remounted OEM seats for three passengers. This mounting allows each individual their own seat and maximizes passenger space.

REAR

58" high

Hatch height from floor to opening (straight drop) exceeds ADA requirement of 56 inches. Exclusive welded, steel-cap rear bumper assembly provides maximum strength and safety.

FLOORING

150-mil thick

A unique weld process ensures a lifelong even floor. The proprietary, thermo-plastic surface with a co-extruded scrim backing prevents movement and wrinkles. A matte finished, diamond-tread pattern helps prevent slipping, is easy to clean, and extremely durable.

RESTRAINTS

4 oval "L" track

Includes four oval "L" track floor pockets and one Q'Straint™ Standard Retractable Tie-down System.

FUEL SYSTEM

OEM

Taxi conversions maintain the original manufacturer's fuel system.

Conversion Specifications

Half-Cut (Taxi) Interior Features

Manual, spring-assisted ramp is easy to lift and rattle-free.

A fold-away ramp is available as an option.

14-gauge, cold-rolled steel tub provides exceptional strength and durability.

Unique weld process ensures lifelong smooth and even surface.

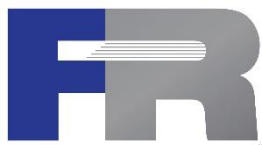

150-mil, diamond pattern, thermo-plastic, scrim-backed floor is wrinkle free, durable, and easy to clean.

The powder coated, texturized ramp surface reduces slips and improves traction.

Ramp is positioned at a 9%-grade ramp, lower than the ADA 11% maximum, ensures easier loading of a wheelchair or scooter.

Second-row seats are the OEMs mounted on a steel frame and adjustable.

Individualized seats assure each passenger a comfortable ride.
