

Simple Stow™ Ramp

Toyota Taxi

Looking for a mobility solution for your Toyota Sienna taxi that stows out of sight and out of mind? The new Simple Stow ramp design is the answer.

The ultra lightweight Simple Stow ramp is easy to use and quick to deploy. Simply slide the ramp out from the rear of the vehicle to deploy. Then slide the ramp up and snap securely in place when loading is complete. The Simple Stow ramp fits flush against the floor when not in use, providing ample room for stowing luggage and other cargo items.

- Smooth, lightweight ramp design - no slots, avoiding luggage snags.
- Reliable ramp (1,000 lb capacity) snaps securely in place when in the upright position - no more rattles.

Quiet, easy and smooth - it's the most convenient and efficient mobility solution for an accessible taxi. Contact your BraunAbility representative to find out more about the new BraunAbility Toyota Sienna taxi with a Simple Stow ramp today (also available as a retrofit on some BraunAbility Toyota Sienna taxis).
