

Quality, Flexibility & Reliability

THE DODGE/CHRYSLER REAR-ENTRY MINIVAN.

Dodge/Chrysler Rear-Entry Minivans are ideal for use in the healthcare, taxi and transport industries. Minivans are a great alternative to larger vans, shuttles or buses; particularly in situations where only one or two wheelchair positions are required. Minivans offer ease-of-use and excellent maneuverability as well as efficient gas mileage. In addition, our Dodge/Chrysler rear-entry minivans are ADA and FMVSS compliant.

It's what you'd expect from MobilityWorks® Commercial, the leading provider of ambulettes, wheelchair accessible vans, shuttles and minivans in America. You'll have peace of mind knowing you have the best and safest vehicles possible to transport your customers comfortably and safely.

After — Flat

FLEXFLAT™

It's a wheelchair ramp that folds flat when not in use. It's there when you need it and folds out of the way when you don't, creating a useable deck like a standard minivan. Perfect for luggage, boxes, cargo, golf clubs and more.

- No more barriers
- Like having both regular and accessible vans in one
- Converts in just seconds
